IMU-CDC Conference Support Program

Are you organizing a Mathematical Science Conference taking place in a developing country? Would you like to provide support to mathematicians from developing countries to join your conference as a speaker or participant?

If yes, apply for the IMU-CDC Conference Support Program today!

ABOUT THE GRANT

The IMU-CDC Conference Support Program provides partial support to Mathematical Science conferences organized in developing countries.*

The Conference Support Grant is intended to cover only** **travel and accommodation** costs for invited speakers and participants from developing countries.

**In exceptional cases, the program also supports international conferences in developed countries, please refer to conditions in the web.*

***Due to the COVID pandemic, applications can include expenses for the acquisition of material or payment of services to conduct activities entirely or partially in online format.*

APPLICATION DEADLINE

Applications run four times each year with deadlines in January, April, July, and October. Kindly visit the website for exact dates.
