

IMU AO CL 2/2011: Address/Data Check

To: IMU Adhering Organizations
From: Martin Groetschel, IMU Secretary

Dear colleagues,

This is an e-mail from the new permanent IMU Secretariat in Berlin. The persons working at this office for IMU have begun their activity. We are currently transferring the IMU Web site from Zuse Institute to the Weierstrass Institute. We are beginning an overhaul of the contents, and this e-mail is a request to you to check whether the information/data about your country, adhering organization, committee for mathematics, etc. are correct.

May we ask you to go to the following Web page:
<http://www.mathunion.org/members/countries>

By clicking on "sorted alphabetically" you will easily find your country. For each country we have listed whatever has been requested by the country in the past. There will be at least the contact data of the adhering organization, there may be the members of a country's Committee for Mathematics or at least the Chair of this committee, and in most cases we list the mathematical societies that operate in a country (we usually set a link to the homepage). Should we add more information?

Are the data correct?

If not, please send an e-mail with the updates to

manager_at_mathunion.org
with a CC to
technician_at_mathunion.org

so that we can update our data.

Best regards

Martin Groetschel
