BULLETIN OF THE INTERNATIONAL MATHEMATICAL UNION

New Membership

The International Mathematical Union, by a unanimous vote, admitted Turkey as a member of the Union in Group I, with effect from 1 January 1963.

Prof. K. Chandrasekharan
Secretary
International Mathematical Union.

End of the Bulletin of the International Mathematical Union.

BERICHTE — REPORTS — RAPPORTS

Annual Meeting of the Mathematical Society of Japan
Tokyo University, May 31 — June 3, 1962.

Scientific Program:

May 31. Real Functions: 21 reports. Special report: Y. M. C h e n (Hongkong University), "Theory of asymptotic expansions". — Topology: 12 reports. Special report: Y. Y o m o, "On some invariant character of the Pontrjagin class". — Algebra: 17 reports. Special report: Y. A k a g a w a, "On an extension of an algebraic field satisfying given local conditions".

June 1. Foundation of Mathematics: 16 reports. General report: H. B. C u r r y (Pennsylvania State University), "Logic as a mathematical science". — Applied Mathematics: 9 reports. Special reports: M. S h i b u y a, "On the arise of pseudo-random numbers"; H. K o m a t s u, "On the recognition of patterns". — Statistical Mathematics: 17 reports. Special reports: M. M a - s u y a m a, "On the arising of dispositions of circuit type"; G. I s h i i, "Intraclass contingency table". — Topology: 13 reports. Special report: H. T a n a b e, "Integration of timely non-homogeneous divergence equations".
