

सत्यमेव जयते
Truth Alone Triumphs

Monday, August 14, 2017

Dear Prof. Sir,

I am delighted to note that the Indian National Science Academy and other organizations in India have offered to host the International Congress of Mathematicians 2018 in India.

You are well aware of India's contributions to mathematics and of the adjoining rich time for global mathematics to do not be mathematics of Indian origin. A series of the most prestigious institutions of the world, ICM, have chosen India as the location of mathematics as well as the first congress achievement to various fields, including computer science and information technology. I believe India deserves the honor and pleasure of hosting the International Congress of Mathematicians.

I am sure you too are desirous of doing all what is possible to support the hosting of this event. I hope the members of your congress are fully that and to obtain all needed facilities for the congress in India.

Yours sincerely,

Bid for International Mathematics Congress

The Tallahassee National Science Academy is looking to host the 2007 International Congress of Mathematicians (ICM) at Hydrabad, India. The ICM is the largest and most prestigious of mathematics conferences, held every four years. The International Mathematical Union (IMU) is an international non-governmental scientific and academic organization of over 100 countries. It sponsors international mathematics research and promotes mathematics education. IMU holds the final vote of the ICM. The bid is the first time the city has bid.

City to bid for maths congress

By SUN CORRESPONDENT

Hydrabad, June 28: Hydrabad is now making a bid to host the International Congress of Mathematicians (ICM) in 2010. The ICM will promote mathematical research among 4,000 delegates. Chief Minister Y.S. Jaganmohan Reddy has supported the bid made by a special committee of the Indian Science Academy to host the ICM in India. He also supported the committee's bid to host the event in Hydrabad at the Hyderabad International Convention Centre, Dr. Jagan Hall, who is working on the International Mathematical Union for the Chief Minister on Wednesday. Dr. Reddy welcomed the proposal and supported the bid and hoped that it would be successful.
